LANGUAGES

✓ Arabic   Native   ✓ English   Good

PERSONAL SUMMARY

I'm Hisham and I'm originally a front-end (React) developer, but I have experience as a back-end (Node) developer. Currently, I aim to work, gain practical experience, develop myself, and learn from the team I will be working with. The truth is that I am still new, but I have done many practical projects from which I have learned a lot.

PROJECTS

Onlin-Shop.

MERN Stach Web Developer
- Used in the front-end developer (TypeScript, React, Redux, Bootstrap).
- Used in the back-end developer (Node, Express, MongoDB).
